19/6/84 (~~June 19, 1884~~)

(Leipzig, Germany)

Dear Shepherd

Yours with the enclosures to hand. As I dare say you saw from the opening sentence of one, there is to be a vacancy at Univ. Penn - & Tyson, the Sec. wrote asking me if I would accept the chair of clin. Med. if nominated. Letter quite unofficial, only just a feeler. I have replied 'yes' I have written to Howard & Ross, & told them both to keep mum until something definite is heard as it will do no good to have the thing talked about, as it may come to nothing. Tyson said he sent on a catalogue as well - please forward to 25 Russell Sq. London, where I shall be on the 12th July.

It will be a great wrench if I go after 10 years growth in a place the roots get pretty deep, but I hope I (am) not too old for transplanting.

I like Leipzig very much - sorry I did not come here earlier. Shall see Braune & His work before I leave. Kind regards to Mrs. S. & your people Love to the children

and their

Yours sincerely

W^m Osler

*Keegan from Wm Osler must have come at about the time
but must believe this -*
