My Dear Cushing

I saw Mrs Deane today
in consultation with Dr Gordon I
found her looking extremely well
since I saw her last she has grown
quite stout & looks younger -
I think she had better wait
before undergoing any further
operation at least another six
months, for she appears in such
good condition that I don't think
she loses much sleep for the pain.

By the way. In going over ^{late} the
old minutes of the Faculty of
Medicine of McGill. I was re-

mindful of many things I had
 forgotten among others that Odle
 did not resign when he went
 to Philadelphia but got 24
 months leave of absence from
 October 1st - this was at meeting held
 on September 3/84 - after he
 had been in Philadelphia 6
 months his resignation was
 sent in & read at the meeting
 held October 11th - Resolutions
 of regret passed - I thought
 this might interest you

Yours truly

J. Shepherd
