131 South 15th St.

Dear Ogden

I saw ^{Caultie} Caultie yesterday in Montreal & was glad to have from him good account of you. He has thriven in Chicago; never saw him looking so well. Mrs. F. & the chicks all well. May is growing a big girl. Percy is quite the young man. When do you go to New Orleans? for the Association meeting? I should much like to go but only expect to return from England at the end of April. I go about middle of March. Lectures are in the 26th. Will send you a copy on encodarditis. Like the work here - & in time may be successful in consultation work. Let me know how you get along from time to time.

With best wishes for the New Year.

Yours sincerely,

Wm. Osler.
