Friday

[May 11/1885]

Dear Shepherd

When did you fellows get the notion that I was coming up on the 20th? I cannot possibly. I have been away so much (in Toronto April 5th) and am full of work with our short spring session having four classes a week. And lastly & most important, I must try to economise this year as I am still in arrears, and expenses here are very heavy, though I am living most quietly. I do hope Campbell will not beat Mac. It will be too bad; still I have but little fear of the result. So glad to hear that the building operations have begun. I have written to Kerr, Sullivan & others about the meeting. If there is any prospect of a failure we had better postpone the Winnipeg meeting & hold the session somewhere in the East. I am struggling towards a little consultation work. Mitchell is most kind in this matter & I have seen some interesting cases with him. Poor ~~Molson~~! It would have been a sad thing for the Gunn Artillery. I could not go on to N.Y. to see him. He should have come on here. That glanders case will make an interesting communication. I hope Howard has saved some specimens. Love to the chicks. Kind regards to Mrs S. your Mother & Mr T.

Yours ever

W^m Osler
