Dear Ogden:

I see they are still booming me in the papers about that \$10,000 fee.
What a pity it is I had not charged it!

I shall send Albrecht my paper when it comes out. I wish you would
report Dr. Peckham's case of ochronosis as a sequel to your paper. Put it in the
Journal of the American Medical Association.

All well here.

Sincerely yours,
W^m Osler

Love to the family & to the other one!
