Magdalen College,

Oxford  
November 21st. 1904.

Professor Osler M.D., F.R.S., etc.,  
1 West Franklin Street,  
Baltimore.

My dear Dr. Osler,

It is very pleasant to get your letter. I had just seen your election in the 'Times'. Remembering your speech in the Hall at Christ Church it seems to me very happy and appropriate that you should belong there, to the House of Locke and Burton, and of course it is one of our very greatest foundations and one which has immense opportunities, to the utilization of which I doubt not you will contribute much, so that I think you are in every sense of the word well 'housed'.

It is very kind of you to promise me your medical addresses to the reading of which I shall look forward. I noted that amongst other things you quoted Frederick Myers. Have you seen a very interesting book which his wife has just published, 'Fragments of Prose and Poetry'? If not let me advise you <sup>by the late F.W.H. Myers.</sup> strongly to get it. You will see a review of it in the 'Spectator' of last Saturday, November 19th., which may interest you. <sup>and which I may mention I will at the first report.</sup>

Yours sincerely,

*F. Herbert Warren*
