Dear Sister Rachael:

You had always said that I would leave suddenly some day - and now that day has come. I am feeling very badly at the thought of the break in our life but I am sure it is the best thing for me personally. I could not stand the high pressure much longer, & in any case I should have left in a few years. No one person is essential in the life of an institution. It will be easier to fill my place than yours. I am not unique as you are. I hope you have had a good summer. Do [you] know where the Flexners are? if so send me a postal card at once!

Mrs Osler & the boy are well

Sincerely yours

W^m Osler
