13 Norham Gardens.

W.O. to J. George Adami.
4.x.19.

(hand-written)

Dear Adami,

I had intended to have a letter of welcome waiting - but just forgot. What an interesting experience it will be for you. When does Isobel come? We had 6 weeks in Jersey - such sun and sea. I was in Scotland last week and got stalled on the way home at Newcastle. I was dining with Littlejohn when Meakins came in from London. I saw Macalaster at Glasgow and Irving, and talked over Treasury Committee business. Working hard at revision of text-book. Next to your book where will I find the most recent contribution to the biology of these Familial and hereditary diseases? I know the new work in the Pro. N. Acad. on Huntington chorea etc. When bedevilled to death - or even under other circumstances - come here for rest!

Yours,
Wm. O.
