Dear Halsted:

I was very sorry to hear from Dr. Hurdon yesterday that you had an operation for gall stones. I do hope all has gone well - ask Mrs. Halsted to send us a postal card. It must have been rather an anxious experience for you; I suppose all the possible complications came chasing each other through your mind, but you have always been what Sir Thomas Browne would call 'eusarcoid' & should heal well.

We had a wonderful summer at Jersey - there is nothing like the sea.

Love to you both.

Sincerely yours,

W<sup>m</sup> Osler.
