Dearest B.S.

Better thank you! tho the cough persists & the Trained Nurse.. Poor Sister! She has had a tough time, but the Nurse has been a comfort. Such a nice woman & she scrubs me like a Kid. I have been more than a month in bed. The irritation in the windpipe persists in a curious way but I rarely have a paroxysm. Heavens! I nearly blew the lid off in some of them. Archie & Bill are here this Sunday & Bobbie & Sallie for lunch. Love to all the family. Such a nice letter from L.S. who seems pleased with a definite prospect. We are missing Anna & Tony so much - my love to them - & to the Emmons, if in Boston. Letters now at long intervals. I hope your strikes will be called off soon. We seem settled here to quiet business; if they could only shoot some politician. Poor Wilson! He will come out on top yet.

I hope the new baby has arrived Love to you all

Yours affectionately

Wm Osler
