Dearest Gwen

The old man has had a bad knock out - but is now on the mend - up part of every day. A bad bronchitis with heavy paroxysms, like whooping-cough!

I hope you get the new monthly payments - a little more, which will help - from the Trust Co. Love to dear little Auntie. Take special care of her. Let me know if there is anything she needs at any time to make her comfortable. You will be glad to have May back. It is nice that she is so devoted to your darlings. Bill will be with you soon - sails on the 12th or 14th. He is ? here for a week recovering from the R-trip which was most unpleasant.

Rome?

Love to you all

Your loving

Old Doctor

yes, Rome
When I had
bronchitis with
fever the entire
week I had to
be up attending
meetings.
