Hansen, Hale White

Nov. 10  
1919

Nov 10 Hale White just saw him <sup>a.s.</sup> Nov 10 with Gibson (who has kept most of his notes)  
very few physical signs of a fall since the one a minute before a  
little rest, expectoration. The girl was the Nov. 10 and was

afterwards with food rest.

Very Cheifone when Nov. 10, within the degree of air to cough - extreme parapneumonia !!  
like a coughing cough - total deafness during,

W.C. said White reached a larynx throat - sent for Harmer of Lund, who said  
nothing in his job of throat.

Nov. 22 (case) got used - Temp normal - no alarm.

Subsequently Gibson says of saying some fever, W.C. expressed a wish to see Horder,  
who made little out of it.

In Dec. Horder put needle in chest - found O.

~~Sister saw him.~~

Dec. 15 Hale White some again W.C. very Cheifone. Chest X-ray - Sister was found.

Dec. 24 P. B. of Pus found Sunday of Gordon White's recollection. Eugene very Cheifone

Dec. 29 - Sister from Gallier.
