13, Norham Gardens, Oxford
"Silence Day"
(Nov. 11, 1919)

Dearest Sue

Yours has just come to me telling about the new gd. child. & we thought of you & wished you here in our touching two minute silence I have been worrying your sister not a little. The old cough - coughs on & the other night I raised an acute pleurisy which tickled my side in a lively way - every breath & every cough a dagger. Such a nice time! the only pain I have had. Then about 12 hrs after its onset, came on one of the whirlwind whoop-attacks (no whoop, but you know them) which blew the pain to smithereens. These bad bouts are at longer intervals & the pleurisy will not be much I think. There is no fever & the outlook is good but it is very hard on G. Fortunately the Nurse is a trump. The Bob-Chapin Family come this pm. Poor Bob! I am sad for that good soul!

Love to Harvey & Kate & Anna & Tony - dear Tony! we miss him so much.
Love to the Marians & to Phoebe

(Wright)

Your loving,

W.

Call up Fred Shattuck & say I am better. I dare say there are rumors. Indeed there must be as I have been getting cables
