13, Norham Gardens,
Oxford.

14th.

Dear Hale White,

Your visit was a great comfort, Lady Osler had got worried at the length of time &c. Report is:

- 1) The pleurisy continues ^{dry} ~~also~~ friction a bit more extensive.
- 2). No fever, sweats etc.
- 3) Cough less paroxysmal, and less severe; but I can still put a pretty active bout, lasting 15-30 minutes, or more.

Sincerely yours,

Wm. Osler.

Love to Lady Hale White.
