

To Sir Humphry Rolleston from W.O.

P.C. (script)

Oxford,
Nov. 14, 1919.

Dr. Edward Jenner Wood of Wilmington, N.C. is at the Arundel Hotel, Victoria Emb. He is a special friend of mine and of Thayer's. He has done perhaps the best Pellagra work in the South and could give a good talk at one of the Sections. He is over with his family for a year or more to do P.G. work. Love to Lady R. The friction has not reached the pericardium.
