

P. R. O. to Arncliffe

CUS417/130.95

(letter, script)

Thursday 10 am

[27, Nov. '19]

Sir William had an excellent day yesterday but began to cough at 4 this morning & coughed until 7. He is very exhausted (in appearance) and much disheartened as he vomited about 6.45 - but he is keeping down the hot milk now and is doing. Hale White is coming at 7.55 - I suppose he'll go back at 7.30 if you want to speak with him or Dr. Gibson number 228 Oxford. . . . Do you know Tennyson's Tythonus? Sir William was reciting it as he had his milk - I have always expected this. —
