Dear Wickersheimer,

Very many thanks for your letter of the 6th. I think it would be well to ask Debove not to bring the matter before the Academy until we have the official sanction of the authorities in Persia. This has been applied for and I will let you know at the earliest possible date. I do not think there will be any serious difficulty. I am so glad you think well of the project, and it would be nice to have it done under the joint co-operation of the French and English Societies for the History of Medicine.

Dr. Wickersheimer,
