Dear Wickersheimer,

Pardon the delay in replying to yours of the 21st, but I have been away. I have written at once to Power, as I feel sure that your nomination to honorary membership passed the Council of the Section and it may not have been sent on for confirmation to the General Council. I am sure it is all right.

I have just heard from Persia that the consent is given for the repair of Avicenna's tomb, so that I will at once prepare the circular. Would these be the proper people from France to ask to join the General Committee? - The Dean of the Paris Faculty, the President of the Academy of Medicine, the President of the Society for the History of Medicine, the Professor of History of the Paris Faculty, and, I suppose, the Dean of the Medical School at Algiers?
