Dear Ogden

I have had a quiet summer at home - have not seen so much of my relatives for years. My father is pretty shaky. I was very uneasy about him during the hot weather. Mrs. F. and her tribe are well. May has grown a fine girl, & the boys are all thriving. I dare say Mrs. F. will send you some recent photos. Very sorry to have missed your sisters, I did not go in tho I should have liked very much to see your grandmother. Very few English or Germans at the Congress. Some of the sections were good, others shocking. Glad to hear that you have been busy. I am sure you will capture the town in time. I saw Rogers in Toronto - larger than ever, but unchanged - My love to poor old Cantie when you see him. I have been working at Chorea. Paper on Heart relations in Am. Jr. October & lectures will appear in early No's. of the News. When are you coming on? Take a holiday about Xmas. I am moving to nicer quarters near by. Wish indeed we could get Senn. here. His stock is away up in the East. He will get a call before long. It would be a mistake for him to go to Rush.

Yours sincerely,

Wm. Osler.
