Dr. J. H. Musser

Jan. 10, 1888

(postcard - handwritten)

Dear Musser,

Yes, of course. Send him with a note to Leidy.

Sincerely yours,

W.O.

*His sharp course of lecture on the Central Nerves of Children delivered in the Med. News was so long and so full of interest that it was published in a volume*

*The vol. was issued in 1869 and dedicated to Leidy*

*"in recognition of his work in scientific medicine and in grateful acknowledgment of numerous acts of friendly service"*

*Was not Jackson's letter?*
