Dear Lafleur

See Brit. Med Journal March 30. letter of Harts describing Robin's Laboratory &c in Paris. His work on Typhoid has never been followed & is of the kind which we might get at. His results have not been everywhere accepted but it is a line wh. should prove fruitful. I have not been in B. since. Hope to go on Saturday. Will let you know when you shall be needed.

Sincerely yours,

W<sup>m</sup> Osler
