Dear Schäfer,

I leave on the 20th by Etruria for England and shall call early in May. After settling a niece at school I shall go to the Continent to join the Bowditches. I shall return to England for the month of July. I hope Mrs. Schäfer and the children are well. It seems an age since I heard of you all. I daresay that you know of my migration to the Johns Hopkins University where I have everything I could desire and more than I could deserve.

With kind regards to Mrs. Schäfer and love to the children.

Yours sincerely,
WM OSLER.
