1890 Alford & Penryn heights.

Apr 18 1891,  
writing clinics

1890. Interim mss. Eng., Berlin.

No medical notes from m. Balls!

about Penryn of Temple in London <sup>was kept in England & in the laboratory</sup> to Enquire my son <sup>first time</sup> <sup>was a serious disease in London.</sup> <sup>T. Adams' Surber.</sup>

Spent time in Paris. G. W. his wife etc.

But was time to spend in July

John Cooper in London <sup>in Berlin</sup> & Other Penryn heights,  
Berlin

not seen returned to England July  
lighter, gentle coming towards the  
reputation of being in the air at  
Bonn. could not go to London.  
John was time to meet. must  
say, alone - also longer than  
but did not leave yet.

Went to see Sever & he showed them the malaria organism  
at the first time when he was then on attendance  
had come from Paris.

Alford volume

Charcot Rever of Hygiene. Must have travelled with  
you & la malette was Charcot's case,

Days who were in and of Paris. Penryn heights & wife lived in them. I was  
father's and hypochondria & first name was N. state the case for  
open of pathology for a lecture. Also said "what a circus"

to Nancy to see Berkeim who was using typhoid heat method,  
<sup>in Paris - Stroganow & the doctor (Ernst's success) had then to have answer to the form.</sup>

Penryn to Widdling Penryn to see Wright & Stans & Worm System  
Worm System to see Koelliker

Julius Spital; new syphilis theater in Paris.  
Stans has divided & Schwald the document.

Richard to see Geiger & Wiederstein in the Empire. and. Worm been in the city of Paris.

John Wright & Murray & Penryn  
Murray to see Peltier collage & the very to be examined you - make of just information in Paris.
