Dear O.

I am afraid that you will not see many of the men in London unless you delay your visit until October. I enclose cards to Beevor, Horsley, & Tooth, Gowers is away. We leave next week the 10th., (Trave) earlier than we had arranged but my father has been very ill & I am anxious to get home. So glad that you have had a pleasant visit, We have been most fortunate & had nearly four weeks in Devon and Cornwall with only a day or two of rain. Do come to Baltimore on your way back and see Dr. Osler as a sober married man.

The critics have been most kind. The Lancet & the B. M. J. very complimentary & the Med. Chronicle most laudatory. They disposed of the first printing (3000) in three weeks, and I believe the publishers are very gratified.

So sorry not to have seen you here -'twould have been such a pleasure.

Mrs. Osler sends kind regards.

Every yours,

Wm. Osler.
