Baltimore, Dec. 13th, 1892.

Dear Lafleur:-

I am very pleased indeed to hear of your election at the Montreal General Hospital, which, however, is a minor matter in comparison with the Royal Victoria. Please write to me fully about your prospects there. I have a list of the Governors and will write strong letters to each one of them on your behalf when ever you say the time is ready. What have they done about any college appointment for you, and what are the prospects?

We are most comfortably settled now. Why could you not come down and spend New Years with us? I shall be at home in Toronto after Christmas, and shall try, if possible, to run around by way of Montreal.

Very sincerely yours,
W^m Osler
