Med School

at fall
 Would have given an address June 1879 for "Some advantages of the union of medical
 School and University". Address given April, May 30 1879. = important step in the
 direction of the med. education in such a direction in USA compared to Canada for
 50% of the Med School is any academic connection - occurs for part time of university
 also for common members of school beyond any need of ~~university~~ university
 consequent degradation in value of the degree.

But that must be a union in spirit or will a name.
