

CUSH/88.52

Parice

(~~Chapter XIV~~, p. 11)

August 31, 1921.

Dear Lewellys:

- (1) What was your first publication? Was it the paper W. O. read before the Pediatrists at West Point, on "Acute Scleroderma?"
- (2) Were you an Assistant Resident at this time, and just when did you join the house staff?

Please answer these questions on this same sheet, to save trouble.

Always yours,

Response

1921/11/22

Krummhaar

(Cf. Chap. XI, p. 34-a)

August 21, 1921

August 22, 1921.

Dr. Edward S. Krummhaar,
Pathological Laboratory,
Philadelphia General Hospital,
Philadelphia, Pennsylvania.

Dear Krummhaar:

Please give me the date of the first volume of autopsy records which you showed me in the laboratory. I want to know how far back they go: that is, how long before Osler's time.

Please answer on this same paper to save you trouble.

Always sincerely yours,
