Dear Lafleur:-

I go to Toronto on Friday, and I could not get down to Montreal by the fourth; in fact I doubt very much if I can get there at all, as Mrs. Osler is not very strong and she will not care to take the long railway journey to Boston. Have you made up your mind to come down here this spring? Do try to get away for a week or ten days. I was delighted to hear of the gift for the Pathological Laboratory. It is a good beginning and it will be most satisfactory if two or three chairs can be endowed.

I send you a batch of papers, some of which may interest you. We shall come back here by New York, reaching Baltimore on Monday the 8th. I wish you could join us in New York and come down then. You know my address in Toronto, 83 Wellesley Street.

Sincerely Yours,
W^m Osler.
