*H.B. Jacobs from W.O.*

Dear Jacobs;

I have been wondering what the devil had become of you. We have missed you very much. I want you to work up this winter all those peripheral neuritis cases and follow them up as far as possible. It would, I think, make a very interesting and valuable contribution.

I will look after Dr. Stone. Mrs. Osler sends kindest regards,

Sincerely yours,

Wm. Osler.
