Dear Lafleur)

Craik

Craik has written that the opening has been postponed to Jan. 8th, at which date I could readily be with you - tho. I do not know whether the Faculty wishes an address from me. I suppose Craik will give me instructions. Very glad of your letter. We have had a very similar Abd aneurism, only it filled one half of the abdomen & was admitted to the Surg. side. By the way could you not come down for the meeting of the Phy. Soc. on Dec. 27th & 28th. We could put you up. Let me know within a few weeks as I want to ask Bowditch.)

Mrs. Osler has just returned from Boston & sends her sincere regards.
Love to all the old friends.

Yours sincerely
W^m Osler
