

Dr. William Osler,  
No. 1 West Franklin Street.

Baltimore, Dec. 7, 1894.

Dear Dr. Yarrow:-

I think Mrs. Holt's gain was much more due to the change in general surroundings than to any special line of treatment we followed, nor do I think that at present she needs much medication, unless that somewhat curious flatulency persists, for which we tried a large number of things without any avail.

Very truly yours,

Wm. Osler.
