Dear Musser:-

I have just this moment got your Diagnosis, and I hasten to write you a note of congratulation. It covers the ground splendidly and should prove a very great success. It is surprising to me **that** with all your work you could have found time to finish it within so short a period.

Sincerely Yours,

Wm Osler

to give address on the Army Surgeon.

In this he quotes the "Serge of Chelsea" again. "and to see
what dimly lies at a distance and to do what his clearly
not heard"
