(W. O. to H. A. Lafleur)

13

Dr. William Osler  
No. 1 West Franklin Street

Baltimore March 13th, 1895.

Dear Lafleur:-

I am afraid there is no chance for some time for any new men on my side. We have just taken two new men, and the next vacancy is promised to a fellow at present in Europe. We have had a good many changes within the past six months, and Fitcher, Carter, Parsons and Atkinson are all new men.

We are looking forward to having Ogden with us for a week. I shall have to keep him from evil.

Glad to hear you have got an article for the American Journal. It, after all, is the best medium we have, and is more read in Europe than any other American paper.

Everything goes on here about as usual. Mrs. Osler is in Philadelphia for a few days. Barker leaves next week for a six months trip in Europe.

Sincerely yours

W<sup>m</sup> Osler
