Godes July 19th from E. Osler

Dear Thayer)

I am glad you have the orders off- Could you look over some of the diagrams for the walls- Sawli & Eichholt have good ~~ones~~ of the thorax & outline of the abdomen. I do not know any one who could do them - a fresco painter perhaps might manage it. Is not Miss This' pa in that line of work. I see his sign on N. Eulaw St. What about Camac? When would there be room for him. He seems a desirable fellow I have had a letter from him & one from Carter about him. Does Atkinson go in Jan? Parsons I think will go in the spring- to England. We should look out for a good 2nd man. Will Carter stay? Will you write to Camac & tell him what you like- next ^{vacancy}? Tell Carter I had his letter. Mrs Osler has done splendidly.- I am improving with 10 hrs sleep & a good header off the rocks each day. Get off those Edoed & Pularth-path. papers- before you leave.

Yours

W.O.

Love to all the boys.
