Dear Ogden: -

CU5417/91.38

(Dr. H.V.Ogden)

Baltimore, Oct. 15th, 1895.

I recognized the handwriting on the wrapping of *Félice*. I am sure I shall enjoy them very much. It is a most dainty volume. I have not seen any of the series before. One scarcely expects to see work of such excellence from Portland.

You will receive in a little while a copy of the second edition of my text-book. There has been some delay in filling my private list, as the agents unfortunately swooped down on the whole of the first printing.

Mrs. Osler sends love.

Sincerely yours,

Wm. Osler.

P. S. I have just received your letter as well. Malloch came down here and spent ten days. Had he gone snipe shooting with me previously he never could have reached Baltimore. Glad to hear that you have been in the woods. How curious to have seen an albino doe. I did not know that there were jumpers in the copper region.

I am sorry to hear that your mother is ill. Let me know if she comes here to see Bloodgood.
