April 4, 1896.

Dear Flexner

This is the devil's own luck!

The invitation to the dinner and the Programme of the Med. Chir. Faculty came by the same mail, and I see we have the Diabetes discussion on that evening. Welch and I are both down for remarks and I do not see that we can get out of it - much as I should like to. We shall I suppose be able to get away by 9:30.

Yours sincerely,

(Signed) Wm. Osler.

(S. F. says: This letter is an enigma. Obviously it is a declination of a dinner invitation, but to what dinner I have no idea.)
