(Dr. W. S. Thayer)

15 Queens Park
Toronto ~~1913, takes~~
23rd [August]

Dear Thayer

Get the additional things done as reasonably as possible Our fund will stand it- if not my pocket will, I have had a letter from Lafleur who had seen H. & reports him much better in every way. He thinks that it would be better for him to get stronger before leaving for home. I enclose a very nice letter from H. received the other day. He is evidently much stronger & in better spirits.

I saw Parsons this afternoon- brown & fatter. Where is Norman? did Bloodgood take out his B-G-? Sorry to hear that you have had such heat. It was cold enough for a fire here yesterday

Yours,

W.O.

Mail me on receipt of this (early Monday am) the ~~was~~ of the Münch. Med. Woch. to which H refers no. 12 & 13 1895 I have just gone over our Typhoid cases & have been looking at our Balt. records carefully- regarding the balled & unballed etc.

~~Ball valve falls loose in the common duct. Jan 22 1897~~

Characteristically,

The Cryptic Jotscript - this letter indicates the insatiability of his interests for he was evidently on the trail of material for the paper which he read the following January on the Ball valve action of gall stones - an important factor a condition producing a combination of symptoms ^{which} this article did much to clarify.

At the

~~The~~ Canada medical Association meeting held the last two days in

August he is

Some space.
