Dear L.

Honoured! delighted! The Art of Detachment has always seemed to me a very special virtue.

I am awfully sorry for the Admiral. 'Tis too bad at his time of life He comes down this p.m. I wish you would run your eye critically over Lectures iii-vii of the N. Y. Med. Jr. & send me a memo of any errors &c. Lectures i & ii are printed off & vi & vii have not yet appeared. I am having them arranged for Book form & so want the corrections.

Egerton is a jewel - weighs 24 1/2 lbs & is a lump of good nature.

Yours

W.O.

Mrs. Osler sends love.
