Dear H. V. O.

Mrs. W. O. is constantly - really - saying - when is Dr. Ogden coming to stay? You & Laffie are her special favorites. I will keep an eye on Burgess - I do not see how he can stay here any time as we have no room for graduate students.

I am busy reading the proof of my Angina Lectures in book form. You will get an early copy.

Do come soon. Little Egerton Y. is in splendid form - a regular buster - good as gold.

Yours,

W. O.

Kindest regards to your mother and sisters.
