Dear Graham:-

Don't forget about McCrae and the "Garrett". I think he can get it as Platt has consulted me about the place. You might write Platt a note. His address is Dr. Walter B. Platt, 802 Cathedral Street, Baltimore.

I hope you found your mother better. It is too bad that you should have had your visit interrupted.

Sincerely yours,

Wm. Osler.

This is of interest to me. I was in the Toronto General and Home Office. The man I mean usually got the chance of going to Baltimore. It shows how he was in the look out for men. The book is to the late Dr. J. E. Graham - then Professor of Medicine in Toronto University.
