1898

Dear Thayer

We are having a delightful trip & shall probably get in by Friday afternoon. I shall go directly to Bar Harbor. I am sending my Holdall & a portmanteau to the Hospital- Miss Bonner's address- should she be away will you get one of the maids to open them and take out & smooth the coats. The shirts could stay in the portmanteau. I hope you are not having a very hot summer. When shall you get off. There is no reason why you should not run on into Oct. as I could take the third ymen in History taking etc for a couple of weeks. Mansen sent his regards. I saw Ross' specimens- they look suggestive. The meeting was delightful. Love to ~~Wilson~~ Barker et al.

*McCue*

Yours

Wm Osler
