Dear Thayer

I think you should have a minimum all day fee- I have fixed my minimum at \$500 for the 24 hours. You should make it \$250 or \$300. You could not charge less than \$500 for the two visits if they are well to do people. The part-day fees should depend partly on the distance & partly on the circumstances of the peoples We must try to arrange the Dispensary- there should be no trouble in settling matters satisfactorily. I am lowering my record at golf which is the only matter of interest t me just now. Appeton writes that the edition is ready or nearly so: I will send copies t the Hospital this week.
Your sister has done a very good miniature of Ike. *

Yours.

Wm Osler

Bar Harbor.
