W.O., to J. George Adami.
Sept. 23rd, 1898.

Dear Adami: Your former letter reached me just as I was leaving for Minneapolis, and I have since then been off to Toronto and back to **Boston**, and have only just returned. I was very much interested in it, and will give it to Flexner to read when he returns. The other paper of which you speak in the letter received to-day I will look for with interest.

Thanks for the reprints. I was reading on the cars this morning the hepatitis paper. The subject is one in which I am very greatly interested. You will see in the text book that I have rewritten the sections on diseases of the liver, and I hope have made them a little more practical.

Give my love to "little Mary Cantlie" and the new baby.

Sincerely yours,
Wm. Osler.
