Dear Gwen

? I enclose M.O.O. for £12. It is a bit late but I have been as usual so much driven that I neglected to send last week. I am so glad to hear that you have had a happy winter. We shall be anxious to know more about your summer plans. We have taken passage by the St Louis on the 31st of May which will bring us to London early in June. We shall spend July & August somewhere by the sea, quietly & if you are in England it will be very jolly to have you with us, with sister too - the bad thing. We must have a jolly time in London again <<<

Bill is working hard & so much interested in his work. I had a nice letter from Bea last week. She seems very happy at the School.

Love to Maizie & Charlie & the little lambs. Revere is fun now, & so full of mischief

Your loving

Old Doctor
