

(Dr. John H. Musser)

1 West Franklin St.,
Baltimore, Md.

(hand-written)

July (1900)

Dear Musser

While we are awfully sorry to part with Gwyn, I feel that the work with you is just what he has desired & gives him a splendid chance to begin life under most satisfactory conditions. You will find him very attentive & civil with patients. He does not know everything 'by a long chalk', but you will find him willing to learn. He gets on with students well & last year his course in clin. Microscopy for the graduates was most successful.

Mrs. Osler & I feel so happy that he should go to you.

With kind regards to Mrs Musser

Ever yours

W^m Osler
