Dear White:

I had an opportunity on Tuesday evening to talk with MacCormac & the secretary of the Com. about the Hon. Fellowship affair. As there were to be only four they felt that two could not be selected from one city & Keen was your senior. Those were the two points upon which they laid stress. Evidently the question was very fully discussed & they knew all about you. I am very sorry. I hope we may see you. We are off to Norwich for a few days & then go on the river for two weeks before taking to the seaside - ^{Dorset?} Dorset again for a steady rest.

Kind regards to your very very very much better half.

Yours,

W. O.
