December 14, 1901.

Dear Adami,

Thanks for your note. It would have been hard in many ways to pass over Roddick (Appointment as Dean of the Medical Faculty, McGill, J.G.A.), and he will, I am sure, renew his interest in the work of the school.

I was at Ann Arbor the other day, and they all spoke very enthusiastically of your visit. I hope the text-book is maturing rapidly. It is certain to have a large sale.

I am sure you will find Woolley (who became Fellow in Pathology under me - now Prof. of Pathology and Dean of the Medical Fac. at Cincinnati. J.G.A.) a very satisfactory fellow. He is very bright and intelligent.

Give my love to 'little Mary Cantlie' and to the children.

Sincerely yours,
WM OSLER.
