

(J. H. Medical School - Howell)

Baltimore, Dec. 28th, 1901.

CUS417/97.109

Dear Howell:

I should think it would depend a good deal on his preliminary training, etc.; if he had had the proper thorough laboratory courses, and whether he had a reading knowledge of French and German. Then I think he should put in a year with us.

Sincerely yours,
Wm Osler
