Baltimore, Sept. 27, 1901.

Dr. C. T. Howard.

Dear Campbell:

So glad to hear that you are enjoying your work at the M.G.H. I am sure you will find it very satisfactory. I am writing to McCrae to keep an eye on you, and I know you will be able to pick up a good deal of practical knowledge. I think a year here with us would probably be most useful. You would not be overworked, and could get out one or two good papers.

Give my love to Marjorie and Muriel.

Sincerely yours,

W. Osler.
