Pratt.
Dear Pratt:-

It was very nice to get your letter of the 25th, and to find that you are in good hands. I am sure you will find Krehl a most satisfactory man. Please give him my regards. I will have a copy of my text-book sent to him, and a volume of our Studies in Typhoid Fever.

I will send you this week the list of books for the tuberculosis library. I haven't had them copied, so please take good care of the list which is in Dr. Welch's handwriting. I will enclose a memorandum with reference to certain ones which we have. Keep a close eye on some corrections for the text-book like a good fellow. Use your pencil freely. Suggestions for rearrangement will be in order.

We shall probably sail on the 25th of June for England. Our address there will be Brown, Shipley & Co. If you return through London there are some men I want you to meet.

Take good care of yourself and do not work too hard, and sample a fair amount of beer in the course of a week.

Sincerely yours,

W^m Osler
